

Main.java

Run

Output

```
1 import java.io.*;
2 public class Main {
3     public static void main(String[] args) {
4         try {
5             File file = new File("/tmp/student.txt");
6             FileWriter fw = new FileWriter(file);
7             fw.write("Hello Java");
8             fw.close();
9             if (file.exists()) {
10                 if (file.delete()) {
11                     System.out.println("File deleted successfully.");
12                 } else {
13                     System.out.println("Unable to delete file.");
14                 }
15             } else {
16                 System.out.println("File does not exist.");
17             }
18         } catch (IOException e) {
19             System.out.println(e.getMessage());
20         }
21     }
22 }
```

File deleted successfully.

=== Code Execution Successful ===
